

KSH @ European Youth Parliament

On 30.01, 8 KSH students took part in an in-school session of the European Youth Parliament at Gymnasium Kirchenfeld in Bern. The delegates joined students from Uster and Basel in devising and submitting resolutions to improve waste management practices and mental health in workplaces, to introduce natural disaster relief and paid menstrual leave, and to combat urban congestion and the overfishing of oceans. Devising and passing a total of six resolutions in the course of the day, the delegates demonstrated that even the most challenging of problems can benefit from a fresh perspective and some blue-sky thinking. Well done to them, and thanks to our friends at Kirchenfeld for the fantastic hospitality!
